

The background image shows three workers in orange protective suits and white helmets walking on a paved surface. The image is overlaid with a dark blue semi-transparent filter. The workers are walking from left to right, and their shadows are cast on the ground. The overall scene suggests an industrial or safety-related context.

ECG

STEEL AND ALUMINUM – INDUSTRY PRESENTATION

The business focuses on industry, steel, aluminum, and ISO services

ECG

Clear path for growth and exciting ventures ahead

1945

The first fishing boat delivered from Hellesøy

1960

Turning point: in 5 years, 7 boats were delivered ranging from 56 to 96 feet

1973

Hellesøy delivers its first steel-line boat, build number 89

...
2021

New significant milestone. Build number 155. Delivered its first all-electric boat / own developed design

New majority owners, Marine Eiendom

...
2022

The business is shifting towards industry and aquaculture with a focus on steel and aluminum

Rosendal Marine Service joins as sister company

...
2023

Moving the business to larger and more suitable facilities in the Årsnes industrial area

Establishing a department for aluminum. Now 58 employees.

...
2024

Merger between Hellesøy Verft, Hellesøy Holding, and Rosendal Marine Service completed

Name Change and new profile for ECG AS

ECG

An aerial photograph of an industrial facility located on a rocky peninsula. The facility consists of several large, dark-colored industrial buildings and a tall, white crane structure. The peninsula is bordered by a body of water on the left and a forested, snow-dusted hillside on the right. In the background, there are more mountains and a clear blue sky. The text "Industrial facilities and halls at Årsnes" is overlaid in white on a dark rectangular background in the center of the image.

Industrial facilities and halls at Årsnes

01

Area

20.000m² + outdoor area
4000m² indoor area
with efficient production
logistics ceiling height /
door opening up to
approximately 13
meters

02

Capacity

3 x overhead with a
capacity of 2 x
12500 kg + 20000 kg
2 x overhead cranes
with 12,5t x 2 tons
each

03

What else?

300 meters of
shoreline. 100
meters of quay front
at the old Hellesøy
Shipyard

Facilities Årsnes

We have a large,
unique, and well –
equipped facility

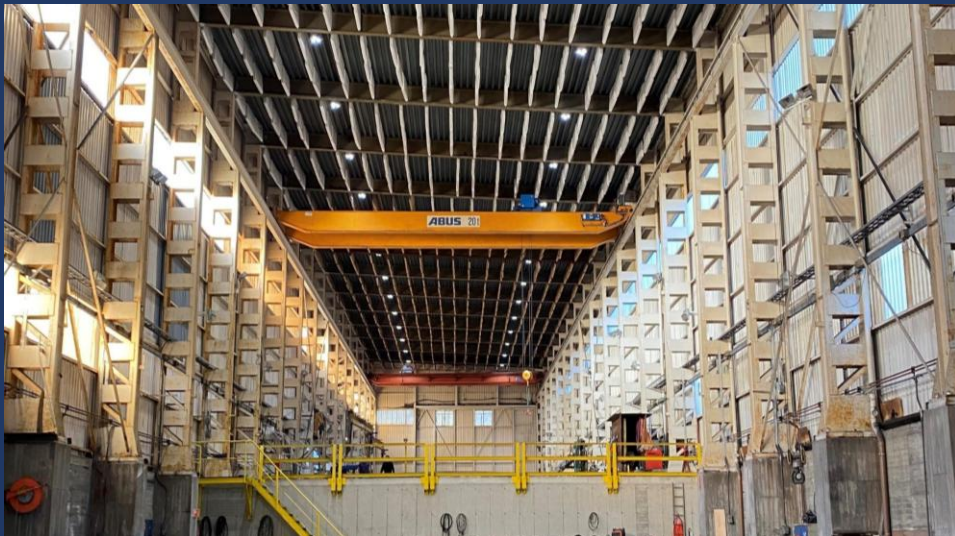

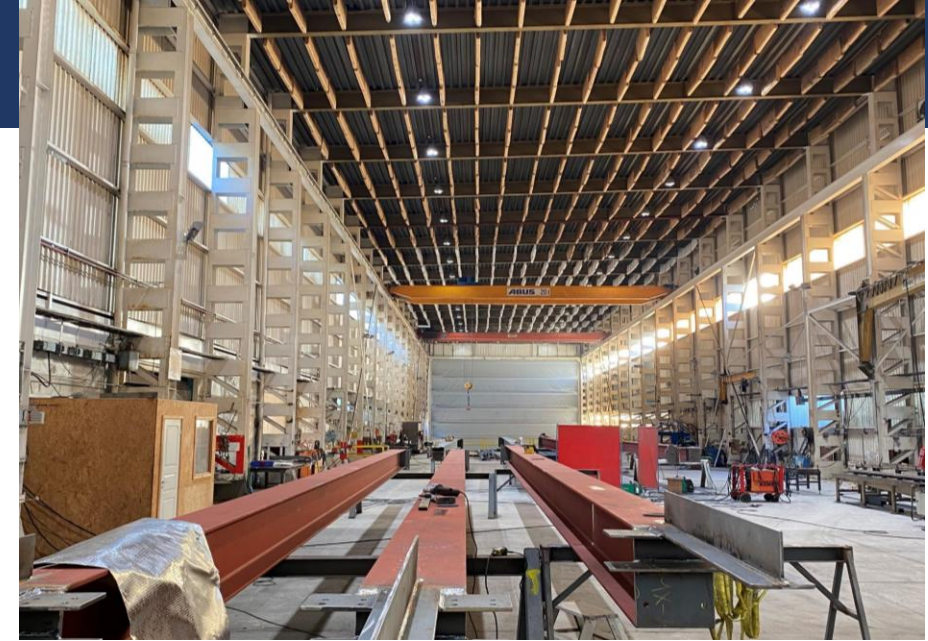

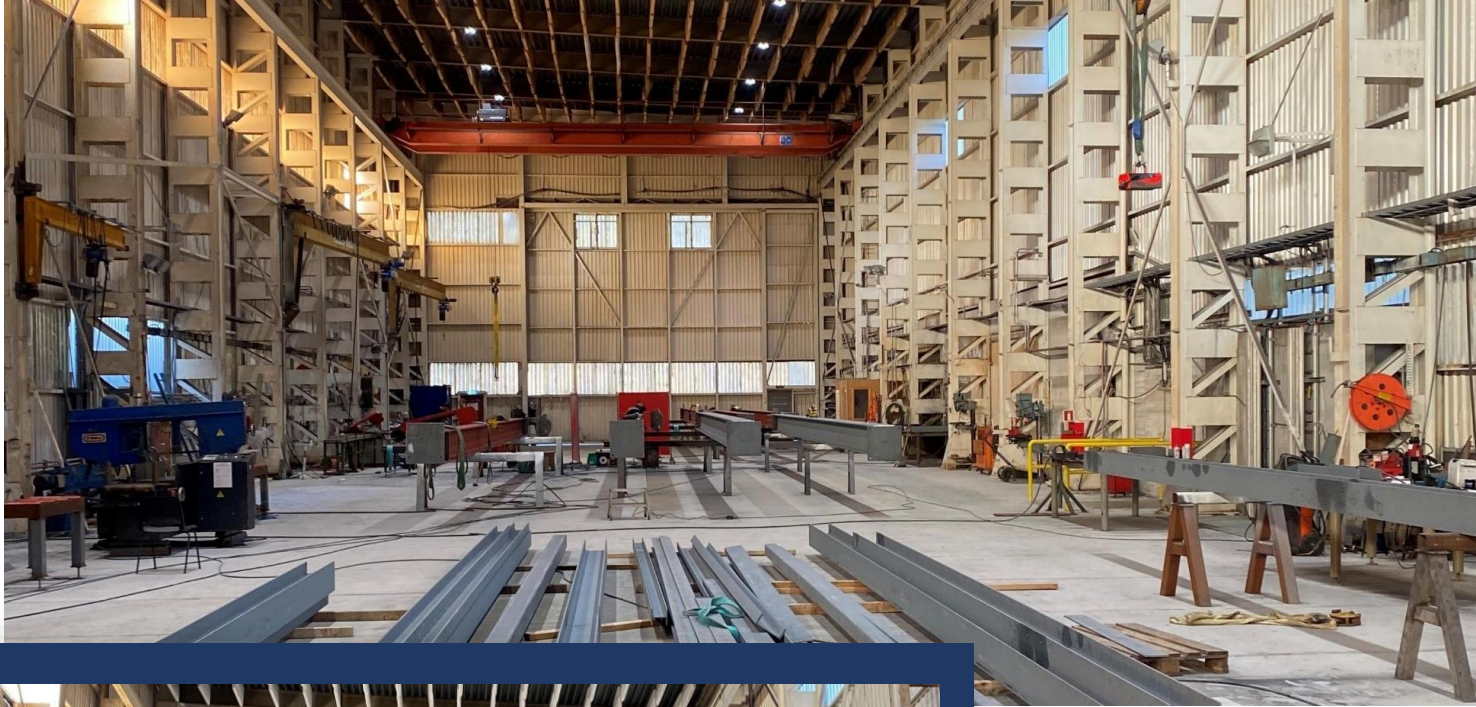

Self- sufficient

Unique Opportunities at Årsnes Industrial Area

At Årsnes we offer
dedicated halls for
aluminum and steel
work, as well as a
painting hall equipped
to handle both large and
small projects.

ECG

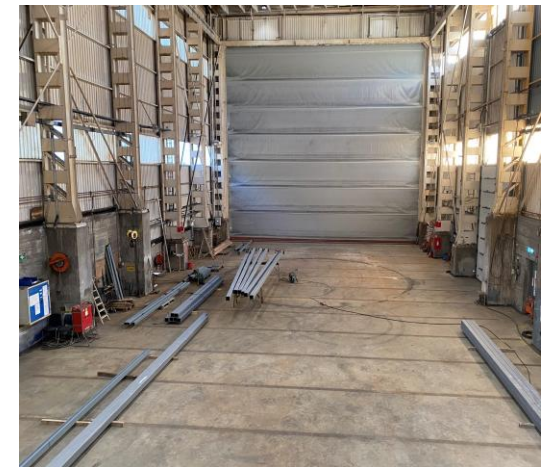

Steel hall

Facilities – Steel hall 90x18 meters

Maximum lifting point 14 meters
below lifting hook

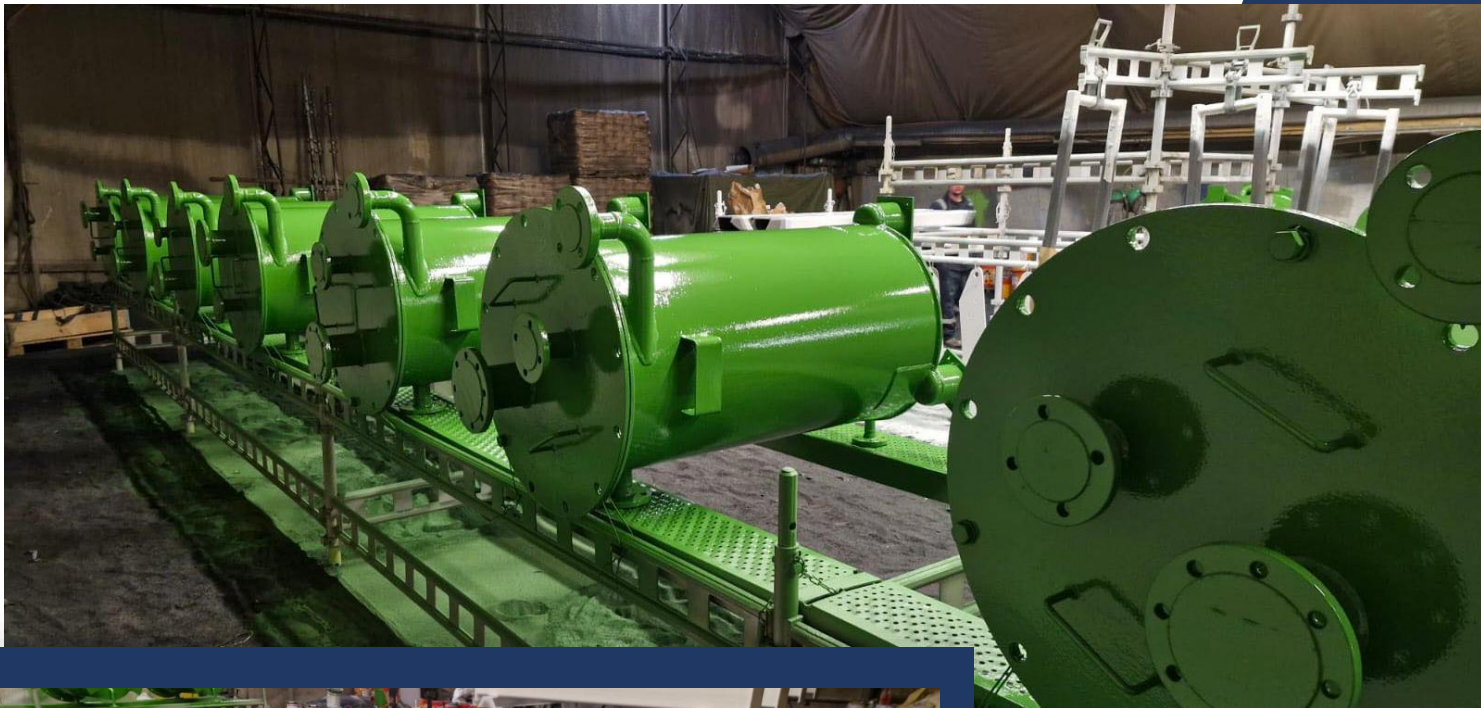

Door opening: 13.8 meters height
x 12,3 meters width

Aluminum hall 25x35 meters

Painting hall

Our painting hall is designed to handle both large and small projects. With modern facilities and skilled staff, we deliver reliable, high-quality surface treatment tailored to each client's needs.

Machine park Årsnes

We offer rental of both **services** and **access to our modern machines**, giving you flexible solutions tailored to your needs. Our equipment helps you streamline production, reduce manual labor, and ensure high-quality results.

Grinding machine

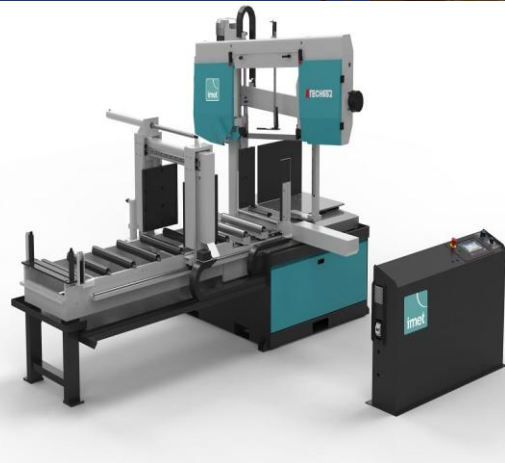

Avgradering -/ Slipemaskin – Modell: Costa MD4 CVV

Removes burrs and sharp edges after cutting or machining.

- ☐ Large capacity & versatile
- ☐ Edge rounding & surface finishing
- ☐ Pressure rollers + vacuum
- ☐ Stable handling with anti-slip fabric
- ☐ User-friendly 10" touchscreen

Automatic saw

Double column band saw – Modell: KTECH 652 F2000

Automated saw that cuts materials (wood, steel, etc.) to precise lengths.

- ☐ Cuts bars, tubes & profiles up to 60"
- ☐ CNC-controlled feeder & saw frame
- ☐ Precise, efficient
- ☐ Easy 10" touchscreen controls

Plasma table

Plasma machine . Model: Esab Combirex DX3500F20000

Plasma cutting table for shaping metal plates into custom forms.

- ☐ Precision cutting with high speed
- ☐ Cuts steel, stainless, aluminum & more
- ☐ Cost-effective & energy-efficient solution

Stacker

Heavy Lifting – Model: Linde C4531 TL5

We have acquired a Linde stacker for our heavy lifting needs.

- ☐ Lifts up to 50 tons – flexible heavy load handling
- ☐ Robust, safe, and reliable operation

Linde in action

Our Services

ECG

We have good resources and capacity to contribute on many different fronts

Whether it is projects involving steel and aluminum, maintenance, skilled personnel, or ISO services

Steel

We provide services in structural steel (EN 1090) for fish farming facilities, stairs, railings, davits, walkways, foundations, and other structures.

- ☐ Environmentally friendly
- ☐ Experienced staff
- ☐ High quality standards

Aluminum

We deliver aluminum structures including overbuilds, office modules, feed silos, hatches, stairs, railings, and walkways.

- ☐ Own hall for aluminum construction
- ☐ Capacity for most assignments through expertise & facilities

Aqua products

We deliver custom-designed aluminum feed hatches with WiFi control, typically installed on feed barges and on top of aluminum silos.

- ☐ Remote monitoring and easy control
- ☐ Safe and efficient feed handling

ISO services

We provide ISO services with skilled personnel in scaffolding, insulation, and surface treatment. Our expertise ensures safe, efficient, and high-quality execution.

- ☐ Scaffolding
- ☐ Surface treatment
- ☐ Insulation

Personnel

We provide qualified and experienced personnel for hire on external projects, ensuring flexibility, efficiency, and high-quality results

- ☐ Welding steel / aluminum
- ☐ Plate work
- ☐ Pipefitters
- ☐ TIG welders
- ☐ Riggers

Steel construction

ECG is your reliable partner with extensive experience and knowledge in steel construction. We handle projects of all sizes and industries, from building and construction to maritime and metallurgical sectors.

With state-of-the-art facilities and advanced equipment, we ensure quality results delivered on time, regardless of the project's scope or location

ECG. AS Presents fish feed silo module system.

Products

Rebuild of existing feed barge including new feed silos, office module, railings, stairs, and hatches. The result is a modernized barge with double the previous capacity.

Aqua Product

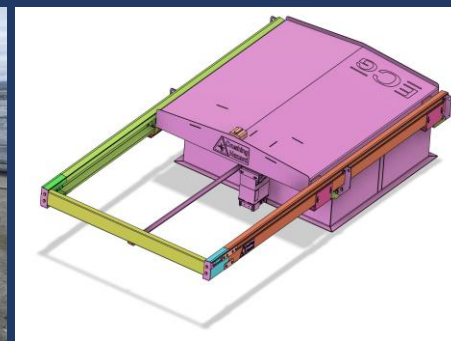

6 WiFi-Controlled Aluminum Feed Hatches

Our hatches combine robust aluminum design with modern digital control. Equipped with complete remote monitoring, they provide continuous access to onboard status for both operators and service teams. With high reliability, user-friendly operation, and safe feed handling, they are built to increase efficiency and reduce downtime at aquaculture sites.

Key points:

- Remote monitoring for full control and service support
- Strong aluminum construction for durability in marine conditions
- Safer and more efficient feed handling

Built to last

A photograph of a construction site at sunset. The sky is a gradient of orange and yellow. In the foreground, the dark silhouettes of building frames and cranes are visible. A large crane is prominent on the right, and another is on the left. The sun is a bright, glowing orb positioned between the two cranes, partially obscured by the building structure. A semi-transparent dark rectangle is overlaid on the upper part of the image, containing the text "ISO services".

ISO services

Services

ECG OFFERS COMPREHENSIVE ISO SERVICES

With a strong focus on expanding and enhancing our operations, we now offer services in scaffolding, surface treatment, and insulation. We have a team of experienced professionals with many years of expertise, appropriate certifications, and qualifications within the ISO domain

ECG OFFERS SCAFFOLDING SERVICES

- ❑ Complete solution
- ❑ Stand-alone services
- ❑ Onshore and Offshore

Surface Treatment

Within surface treatment, we offer a range of different services

- Sandblasting
- Slurry blasting
- UHT cleaning
- Tank cleaning and painting
- Metallization
- Spray painting
- Deck painting
- HT cleaning
- Industrial cleaning
- Inspection

Technical Insulation

We offer a wide range of insulation services including

Heat

Cold

Fire

Sound

Polyurethane
foaming

Personnel

Rental of skilled personnel

Welding steel / aluminum

Fabricators / Platers

Pipefitters

TIG welders

Riggers

Mechanics

Available personnel for external projects

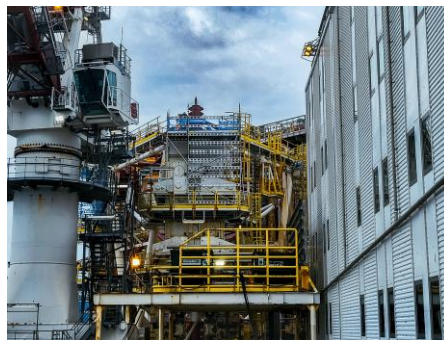

We offer qualified personnel for hire for external projects. Our skilled team, specialized in steelwork, assembly, and scaffolding, is ready to contribute their expertise and labor at short notice.
